Abstact:

eInstruction's Classroom Performance System(CPS) is one of the best ways you will find to drive daily academic progress. This CPS consists of Interwrite Cricket and Interwrite Pad.

Interwrite Cricket is a powerful yet simple to use clicker for students of all ages. From kindergarten to higher education, Interwrite Cricket technology makes real-time student assessment practical for any classroom setting. Students can respond to your questions, while the software captures their responses. You can control how you want to display and use the information. Whether used in the smallest of classrooms or in lecture halls with 2.000 students, Interwrite Cricket is your most cost-effective and affordable student response system solution.

The Interwrite Pad was designed with instructions in mind. This Bluetooth-enabled and wireless pad gives educators the ability to teach interactive lessons from anywhere in the classroom. The Interwrite Pad revolutionizes how teachers interact with their classes.

This workshop session will introduce the features of eInstruction's Classroom Performance System which can be used in any subject in school or universities. With the CPS, students will learn interactively and educators will not be burdened to work on administrative work as the real-time result can be getting instantly.
